Unit Vocabulary

Lesson 1

reproduction.	4
seed.	5
seedling.	6

Lesson 2

fiber	7
material	8
resource.	9

Lesson 3

berry	10
shrub	11
temperature	12

Lesson 4

frost	13
germination	14
wilt	15

Lesson 5

dune.	16
native.	17

Lesson 1

reproduction

How plants and animals make new plants and animals like themselves.

seed

(noun) The object that many plants make to reproduce. (verb) To spread seeds.

seedling

A young plant or tree that sprouts from a seed.

Lesson 2

fiber

Something that looks like a thread or string.

material

What something is made of.

resource

Something plants and animals, including humans, use from natural systems, such as wood or water.

Lesson 3

berry

A small, juicy fruit, such as a strawberry or blackberry.

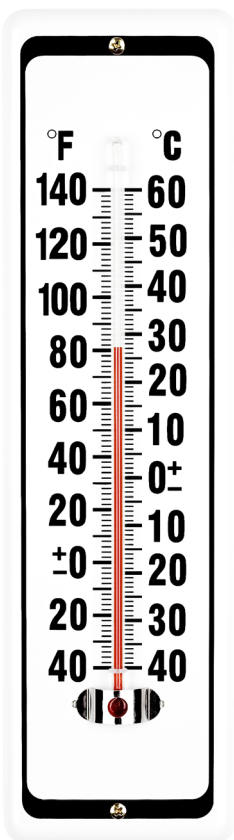

shrub

A bush.

temperature

A measure of how hot or cold something is.

Lesson 4

frost

A coating of ice that forms when the water in the air freezes.

germination

The sprouting of a seed.

wilt

To sag or become limp.

Lesson 5

dune

A small hill of sand piled up by the wind.

native

Something living or growing naturally in a certain area.
